

# join our Young Survivors Group

The Young Survivors Group is part of our Breast Care Center Survivorship Program and is designed to support young women who have been through or who are going through breast cancer treatment. This supportive group will be peer lead and welcomes young women at all stages of breast cancer. We hope this group will provide young women who just received a breast cancer diagnosis or have been fighting for years the opportunity to connect with other women who have walked the same path.

**WHEN:** Third Tuesday of each month at 7 p.m.

**WHERE:** Check [meetup.com](https://www.meetup.com) or call 505.727.6933 for details
